

NUTRI Mg

EC FERTILIZER MAGNESIUM SULFATE SOLUTION

It is a formulation that enables to obtain products with high chemical purity and concentration in plants, and has the ability to improve the biochemical functions of magnesium, especially photosynthesis. It guarantees the coating of the leaf surface thanks to its moist adhesive substances and facilitates absorption through the cuticles and stomata. It is effective against disorders caused by magnesium deficiency, and also provides protection against trunk drying, leaf fall in apple trees and leaf drying in vegetables.

GUARANTEED ANALYSIS:

Water Soluble Magnesium Oxide (MgO) 6%
Water Soluble Sulfur Trioxide (SO₂) 12%

Packaging Types: 10Lt

USAGE AND DOSAGES:

PRODUCTS	APPLICATION FROM LEAF	APPLICATION FROM SOIL
Greenhouse and Outdoor Vegetables	200-250 cc/100 L water	2 L/da
Tuberous Plants	200-250 cc/100 L water	2 L/da
All Fruit Trees	200-250 cc/100 L water	2 L/da
Industrial Plants	200-250 cc/da	2 L/da
