

FULL İKSİR

OIL-BASED, SURFACE-ACTIVE ADHESIVE SPREADER

HOW TO INFLUENCE:

Fool Elixir significantly reduces the surface tension of Fool Elixir. Thanks to its superior properties, it easily penetrates all surfaces of leaves and stems of plants that are difficult to get wet and is transmitted through the stomata to the tissues.

PREPARATION AND USE:

Shake Bean Elixir well before using it.
Use Bean Elixir in cool hours of the day and in windless places.
All leaves of plants and trees (including their back surfaces) are completely wet.

Made in Türkiye
